It's super clean and see how high it floats. I'm sure the super light engine has a lot to do with this. Although I prefer a bigger engine myself I'm sure it would be nice for light cruising for two adults (owner claims the 30 mph WOT). Time Machine 1975 Newport - Chicago - \$6800 Email: sale-p6jeg-1409419004@craigslist.orgBar listed as a 1977 ship is clearly a non-smirked bow making a 1975. The boat is super clean and looks like it just came from the factory. I wish my Newport was this oem original. I'm speechless about this still for sale after 3 months. Somebody buy it! Super-looking 1988 1988 Delaware - \$7300 Email:sale-jpx7s-1412028055@craigslist.org Phone:302 229 0844 The New-Tauk is a cross with a 17' hull with a Newport deck and a Montauk-style console. Although never an official model you will be special to this type of set up. It offers you a wide range of gunwales in Newport, which are great for storing and walking around the nature of the Montauk console. No bottom paint and super clean. What more could you ask for? I love 21 Banana Hulled Whalers. This is an appearance pretty good of images and should be worth an appearance. This is a 200 Mercury Black Max updated rigging and trailer. Another good thing is the optional double-sided pilot's seat. You just don't see these at all. Solid Price.1967 Sakonnet \$5000 - Maryland Email: sale-gxmh-1415941116@craigslist.orgSolid looks around ship. Even there is the possibility of locking rod storage rack. Although some new bottom paint is on it and there is a great looking vessel.1972 16 Katama Virginia - \$4500 Email: sale-dyjuv-1372721513@craigslist.orgClean ship that looks very well maintained. The Mercury Tower is the force of a time test of the great powerhouse of this hull. The hull is not bottom paint and looks outstanding along with the interior and canvas wind screen. The trailer is undersized on the boat, but the price can't go wrong. Rare 27 Offshore in New York. Another Motors \$29,995.Clean earns and some of what the rare site 27 Offshore. Powered by twin Evrinude 250 Ficht DFI engines. I know people claim these are problem engines, but I wouldn't mind them myself. As the reliable OMC/BRP dealer and mechanic told me: Yes, I had some problems with engines. That said, if you have a boat with them on it and they run well today, you need good engines.
